VALERIE GONZALEZ

WHO WE ARE

Military Service

United States Marine Corps

1988-1990

Valerie Gonzalez served her country in the United States Marine Corps. She was honorably discharged with a service related disability, ending her military career prematurely.

After her discharge, Valerie put the leadership skills she learned in the USMC to use by serving in management roles in construction and construction related companies. There she learned the many facets of commercial construction as well as procurement of construction materials.

When Valerie had the opportunity to serve in the Veteran's Administration, she leapt at the chance to help fellow veterans by accepting a position in procurement and finance. During her tenure at the VA, she recognized the opportunity for Service Disabled Veterans to become much needed suppliers of goods and services back into the federal marketplace, especially within the Veteran's Administration.

Valerie formulated the business plan for The Primus Group with the knowledge learned while at the VA combined with her experience in the construction arena. She combined all of that knowledge into a business, and along with her business partners, founded The Primus Group.

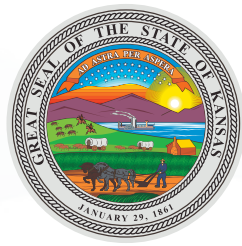

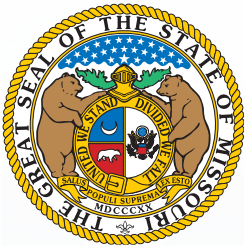

The mission of The Primus Group is to become the premier solutions provider to our client base. Our primary focus is as a supplier of material goods and installation services to federal, military, municipal, and commercial markets with a special emphasis on serving the needs of the Veteran's Administration. We will execute this mission with the same integrity, honor and never fail attitude instilled into every soldier!!

We stand ready to execute for you!!!
